

## “Face & neck lift - i am 58 and people think i'm 40”

Facelift: Worth it

**Facelift satisfaction: Excellent**

**I recommend my Facelift provider: [L. Mike Nayak, MD](#)**

**Why:** He is the best. He has the credentials and I have checked him out with every agency. I am living proof.

I am so happy with my face & necklift. I am 58 and some say I look 40. My 9 year old Grandson is often called my Son. I had it done 14 months ago.

I had never been to Dr. N but I found him online looking for someone who had an operating room in his office. I didn't want to go to the hospital for many reasons. Then I checked him out with EVERY agency. His credentials were the BEST. Then I went to see him. Then I was more impressed. He is not pushy at all and told me the honest truth.

The surgery did not hurt at all and he does not put you under. That was another thing I did not want to be put under. It took about 4 hours and I was not aware of any of it. He gave me a couple of pills and I didn't even see the operating room. My husband said it was amazing.

After the surgery, I won't lie, it hurt. But nothing I couldn't handle. I was back at my office in less than 1 week. I work for myself and could take it easy. Wouldn't suggest going back that soon for most folks.

I don't look tired anymore. I get compliments galore. My Dr. did not overdo it - it is PERFECT.

My Dr. was there for me too. I didn't have to call a service to ask about something. This man is available. He gave me his cell & home number in case I needed it. He sees you often and it is all included in the cost. I trusted him and you should trust the person you let cut on any part of your body. I would recommend him to anyone who wants to look and feel better about themselves.

*I am in the green below.8 months after surgery.*
