COURSE DIRECTOR

Mark J. Glasgold, MD

Robert Glasgold, MD

GUEST FACULTY

L. Mike Nayak, MD

This course teaches an algorithmic approach to autologous fat grafting for facial rejuvenation and demonstrates how to incorporate the technique with a purse string facelift. Based on our text book, *Complementary Fat Grafting*, the topics of fat harvesting, processing and injecting will be taught in a step-by-step manner so that cosmetic surgeons can immediately incorporate the techniques into their practice. Autologous fat grafting can function as a stand-alone rejuvenation technique but is most effective when combined with other facial plastic procedures. A short scar facelift with lateral SMAS purse string suspension is a safe and effective procedure for treating the jawline and neck which can be performed under local anesthesia. Fat grafting will be used to complement this procedure by creating a volumetric foundation in the midface and perioral regions for more complete and balanced facial rejuvenation.

AACS: CREATING PATHWAYS TO LEARNING

The AACS believes that it is important to incorporate several different learning methods to complete the educational process. Certainly, didactic lectures with questions and answers, such as those found during general sessions, are important. The sharing of experiences from colleagues is invaluable, but this is not sufficient for a total learning experience. Concentrated learning sessions provided in our instruction courses are another very important facet of the process, allowing individuals quality time with one or more experts.

No surgical learning process however, is complete without a workshop setting, incorporating focused lectures with demonstrations, and if possible either simulated or actual hands-on experience.

Whether it is an established technique or one that is still unfolding, the learning process must be thorough and multifaceted. The Academy urges each surgeon to be responsible for seeking out a complete pathway to training, prior to incorporating any technique into his or her practice.

Patient safety and satisfaction can only be achieved through a commitment to comprehensive physician education and learning.

MISSION STATEMENT

The mission of the American Academy of Cosmetic Surgery is to foster, promote, support, augment, develop and encourage the science, art and practice of cosmetic surgery.

LEARNING OBJECTIVE

The American Academy of Cosmetic Surgery strives to assist cosmetic surgeons and patients in maximizing the efficacy and safety of cosmetic surgery. The purpose of this workshop is to familiarize doctors with the principles of complementary facial fat grafting and purse string facelifting. At the end of the course cosmetic surgeons should understand the role of autologous fat transfer in facial rejuvenation and how to perform an autologous fat transfer to the face. Also, they should understand how to perform a short scar purse string facelift and how autologous fat transfers can be used to enhance results from facelift and blepharoplasty.

PARTICIPANT PROFILE

This course is aimed at surgeons who are currently practicing facial cosmetic surgery and desire additional instruction on all aspects of facial cosmetic surgery. The ideal meeting participant will have a strong interest in cosmetic surgery and a personal commitment to patient safety and satisfaction.

NEEDS ASSESSMENT

Today's cosmetic surgeon is faced with rapidly evolving technological advances and patient requests for state-of-the-art surgical solutions. Safety concerns about the new techniques make it imperative that the surgeon is well informed on the latest scientific developments in all areas of cosmetic surgery. Surgeons must have updated information and skills to effectively serve patients in today's society. This course will succeed in further preparing the cosmetic surgeon in the field of facial cosmetic surgery.

CME STATEMENT

The American Academy of Cosmetic Surgery is accredited by the Accreditation Council for Continuing Medical Education to provide Continuing Medical Education (CME) for physicians.

The American Academy of Cosmetic Surgery designates this educational activity for a maximum of fifteen (15) AMA PRA Category 1 Credit(s). Physicians should only claim credit commensurate with the extent of their participation in the activity.

A certificate of attendance will be distributed after completion of the program; however, this does not imply that the participant has achieved proficiency with the procedures.

MEETING POLICIES

AMERICANS WITH DISABILITIES ACT

It is important to AACCS that you enjoy this meeting. If you have any special needs due to a disability, please let us know in advance so that we may try to accommodate your needs.

PHOTOGRAPHY/AUDIO/VISUAL TAPING RESTRICTIONS

There is strictly no photography, audio or visual taping allowed in session rooms or the exhibit area, without express prior written permission of the Academy and the speaker. Anyone found photographing or taping without authorization will be required to immediately surrender the film or tape, with no reimbursement or further recourse.

DISCLAIMER

As an educational organization, the AACCS does not specifically approve, promote or accept the opinions, ideas, procedures, medications or devices presented in any paper, discussion, forum or panel, or any formal or informal meeting. This material is presented for educational purposes only, and is not intended to represent the only, nor necessarily the best, methods or procedures appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement or opinion of the faculty which may be helpful to others who face similar situations.

The AACCS disclaims any and all liability for injury or other damages resulting to any individuals attending a session for all claims which may arise out of the use of the techniques demonstrated or discussed therein by such individuals, whether these claims shall be asserted by a physician or any other person.

Some drugs or medical devices demonstrated in AACCS courses or described in print or electronic publications have not been cleared by the FDA or have been cleared by the FDA for specific uses only. The FDA has stated that it is the responsibility of the physician to determine the FDA clearance status of each drug or device he or she wishes to use in clinical practice.

All speakers, topics and schedules and methods of presentation are subject to change without prior notification, and will not be considered reason for refund requests. For further information you may request a copy of the formal Academy Disclaimer of Liability policy from the AACCS Headquarters office.

CANCELLATION POLICY

Cancellation notification/refund requests must be received in writing by AACCS Headquarters, 737 North Michigan Avenue, Suite 2100, Chicago, IL 60611, or by facsimile at 312.981.6787. After August 28, 2007, refunds will not be issued unless the course is completely filled and the spot of the individual requesting the refund has been replaced, over and above the filled course. A \$250 administrative processing fee will be subtracted from each approved refund.
